Players must be on their own side of the field during kick-offs.

DROPPED BALL:

The dropped ball is used to restart play after the referee has stopped play for some neutral reason such as an injury, interference by an outside agent or when play is stopped for substitution with the ball still in play. The dropped ball should not be used to restart play when it is not obvious who last played the ball before it went out of play. Referees must make a decision.

When having a dropped ball, although not required, referees usually will wait until one player from each team has taken up position to attempt to kick at the ball and then will instruct the players to wait until the ball hits the ground before commencing the kicking. If the ball is kicked before it has touched the ground, the dropped ball must be retaken. The referee may remind the players to be good sports and try not to kick each other
